THE SEMINAR

Matter viz., gas, liquid and solid – is composed of the chemical elements. Man's understanding of the material nature of the world stems from the knowledge of chemistry. Indeed all living processes are controlled by chemical reactions. The science of chemistry is fundamental to humanity's understanding of the world and the cosmos. Molecular transformation are central to the production of foodstuffs, medicines, fuels, metals i.e. virtually all manufactured and extracted products. The International Year of Chemistry 2011 (IYC 2011) was a fitting testimony to the achievements of chemistry and its contributions to the well-being of humankind. The International Year of Chemistry was intended to reach across the globe, with opportunities for public participation at the local, regional, and national level and it was celebrated all over the globe through an assortment of seminars, conferences, symposia enabling chemistry to reach the nooks and corners of every part of the world. In recent times, chemistry has branched out into different spheres emerging with a new dimension of understanding and widening its field of application. Chemistry continues to contribute to the economic growth of the society in terms of better standards of living, adequate quality and quantity of food and better nutrition, health and education facilities. The present national seminar will provide a platform for scientists from all over India to explore the expanding horizons in chemical sciences. Such a meet would provide the ideal platform for a wholesome between the young and experienced researchers and would in turn help to take a stock of present status and future directions of chemical research with an interdisciplinary approach.

Major Thrust Areas

1. **Nanomedicines**
2. **Advances in Polymer Science**
3. **Current mechanistic approaches**
4. **Green Chemistry**
5. **Nanotechnology**

THE VENUE

From an academic institution which began its illustrious journey in the summer of 1949, Sripat Singh College, the venue of the present seminar has marched forward and has taken great strides in spreading education to every part of a relatively impoverished district like Murshidabad. Honours courses in a host of subjects in Science and Humanities along with Post Graduate course in Bengali are taught in this premier institution. Today it is at the forefront of disseminating wholesome education to students not just from in and around Murshidabad but also from the adjoining districts. Sripat Singh College is only about 2 Km from the nearest Railway station, Jiaganj which is well connected by rail from Sealdah as well as Kolkata Station. One can also avail train services from Howrah station and get down at Azimganj junction which is just on the other side of the Bhagirathi River.

THE REGISTRATION

DELEGATE	Rs. 500/- (Without Accommodation) Rs. 700/- (With Accommodation)
ACC. PERSON	Rs. 500/- Per Individual
RESEARCH	Rs. 300/- (Without Accommodation)
SCHOLARS	Rs. 500/- (With Accommodation)
STUDENTS	Rs 50/- (Home Students only)
SPOT REGISTRATION	Rs 500/-

The participant(s) will be accommodated in hotels on payment basis. Delegates are requested to confirm their accommodation requirements well in advance.

THE DATES

Seminar Date: December 21, 2015
Submission of Abstract: December 10, 2015
Request for Accommodation: December 10, 2015

ABSTRACT SUBMISSION

Abstracts of poster presentations in A4 size word document in Times New Roman (12 pt.) single spaced style will be accepted. Title should be in Times New Roman 14 pt. bold and centrally aligned. Text of abstract should be justified and should not exceed 250 words. Keywords (not more than five) should be provided in separate line. Abstracts will be screened for oral/poster presentations by the organizing committee. Acceptance of the same will be at the sole discretion of the organizing committee. Acceptance notification will be communicated to authors by **15th December, 2015**. Posters should be of maximum size: **90 cm x 120 cm (WXH)**.
